Em F
Her friendship and her love

G F C

Bsus4 B

Em
We grew up learning as we went

E Cm
What a voyage our lives could be

Cm
It took us through a wilderness

Am D
Into the calmest sea

V: Her smile could lift me from the pain
I often found within
She said some things I won't forget
She made a few bells ring
So simple her humility
Her beauty found in grace
Today she lives another life
In some fantastic place

V: She showed me how to raise a smile
Out of a bed of gloom
And in her garden sanctuary
A life began to bloom
She visualized the world ahead
And planned how it would be
She left behind the strongest love
That lives eternally

V: I have to hope that when it's time
For me to come her way
That she'll be there to show me round
Whenever comes that day
Her love was life and happiness
And in her steps I trace
The way to live a better life
In some fantastic place
In some fantastic place
In some fantastic place
